

ROULET

INTERNATIONAL

Introduces

CHEM-ACE[®]

- OUR ETHICAL QUALITY CHART (EQC) -

- At Roulet International, the human being is our core concern.
- Our priority is the health, safety and wellness of the consumer
- Our strategic objective is to share knowledge, experience and expertise at a fair price
- We strongly believe in high-level services and product quality
- We want to promote short-distance supply and paper-free documentation
- We don't want to generate money as a goal, but as a tool for a better life
- We produce 50% of the company power/energy and we recycle rain water and paper
- Eventually, we believe that a profitable business is compatible with respect for the human beings and the environment.

Don't hesitate to challenge us!
